

The Palace Project

Download

The Palace Project app is available in both the Apple App Store for iOS phones and tablets and the Google Play Store for Android phones and tablets.

- 1** - Open the Palace app, tap “Find Your Library,” and type or scroll to find your library’s name to access their collection of ebooks and audiobooks.
- 2** - Browse available titles by selecting any of the headings to view additional or related titles. Or, search for a specific title by selecting the magnifying glass in the upper right corner of the screen.
- 3** - Select the desired title and click “Get.” If your book is currently unavailable, click “Reserve” to place a hold. After choosing to get or reserve a title for the first time, you will be prompted to sign in with your barcode number and password/PIN. (to create a login, see step 4)
- 4** - Select “Create Card” to fill out the form to make a virtual library card. Select “yes” to one-time geolocation to make the card. Enter your name, email address, and create a password to submit the form. Check your email to get your barcode number (highlight and copy the barcode number) and click the verification link to activate the card. From there, go back to the Palace Project app, click 'back' at the top left, paste your barcode number and enter the password (PIN) you just created.
- 5** - Once your book has been downloaded, click “Read” or “Listen” and enjoy! Borrowed titles can be easily accessed by selecting “My Books” at the bottom of the screen.
